

Whaling Around the World has been created by The World Council of Whalers for individuals interested in learning about whaling communities, the people that live in them and why they whale. The World Council of Whalers (WCW) is an international non-governmental organization founded in 1997 to provide a forum for whaling peoples around the world. Its mission is to promote their continued sustainable use of marine living resources, to protect their cultural, social, economic and dietary rights, and to address their concerns.
